

HOME WORK

Create two pages of website as description below:

1 Project Structure

a. Project structure is following the zip file as the attachment for you

Lab2

- Index.html
- Cs.html
- Images
- videos

2 Description and Figures

a. Description

You need to create two pages of website index.html and cs.html.

- In index.html, when we click on image of computer science or menu named computer science it will redirect to cs.html.
- In cs.html, when we click on logo home it will redirect to index.html

*** Using css is optional.

b. Figures and Format

i. Index.html

li. cs.html
